The Discount Property Directory.co.uk

Hi, Carl Henry here,

You may now be thinking "I know what this is, it is another of those repossession lists" - nothing could be further from the truth. This directory puts you in touch with special trade sources who are approached by a wide range of people who are motivated to sell their properties quickly and at a discount due to various reasons.

Yes, repossession is one of the reasons but not necessarily the main one, you see it is not just bad economic conditions which makes discounted, or below market value (BMV), properties available. These properties come available every week of every year - good times and bad.

This is not a list of properties - it's a constantly updated source of the very latest properties discounted below market value.

Over the last 12 months I have researched the market to find these little known trade sellers of properties, you can now register with them to receive regular email updates of available property. The current directory includes over 120 active sources of discounted property. – [click here to download "Discount Property Directory.co.uk" instantly 24 Hours a day.](#)
